Sen. Allen offers statement on ‘racinos’ legislation

LANSING – Sen. Jason Allen, R-Traverse City and chairman of the Senate Gaming and Oversight Committee, today issued the following statement regarding the ‘racinos’ legislation:

“I have always had an open-door policy for meetings on the ‘racinos’ legislation. I plan to continue an open dialog on this issue with constituent groups and legislative leaders. This complex issue deserves careful consideration through the legislative process. We will hold hearings on this at the appropriate time. I would welcome groups and individuals on both sides of the issue to testify at those hearings.”
